

## TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each and every global trade. Transporting industrial goods takes place each and every day on our busy planet. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread internationally.

First established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. previous to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation with the industry. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly manufactures numerous models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products used and recognized all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and intends to become a world-class leading company.
