

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly built on a one hundred year tradition of service and quality. They concentrate on various modules, integrated systems and parts to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor values the requirements of their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor encourages innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused people. These top-caliber people could quickly adapt to changing environments and freely demonstrate the level of commitment and performance necessary in order to attain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers their employees various chances for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of drivelines, axles, braking and suspension systems for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the needs of all their worldwide engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group who is devoted to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

They have their supplier network that is particularly located to support the growth of the business. Each regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business processes and apply lean methods.
