

Clark Forklift Part

Clark Forklift Parts - At present, there are no less than 350,000 Clark lift trucks performing globally, and more than 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 particular items intended for 20 distinctive brands of forklifts and automated equipment. Your local Clark Supplier is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the particularly economical and advantageous system of "Lean Manufacturing" for its assembly plants and use of resources. This structure was developed to acknowledge the most effective method of manufacturing plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the proficiency and excellence of their products while minimizing costs. The contemporary value engineering program combines innovative product improvement and offers superior customer support and service within the industry.
